3	2	20 min	Imagination Letters Socialisation Tactile discrimination	Make sounds Improve listening skills Name, read and write letters Cooperate and share	The Sandwich Action! Guess it

Player 1 finds a word from one letter; Player 2 finds a letter from one word!

Can you make the letters match?

Goals

To identify braille letters.
To recognise sounds and their function in word creation relative to personal experience.

The adult prepares

- 2 identical sets of 10 different letter bricks
 - 2 bowls
- Give each player one set of letters in a bowl.

The children play

- 1 **Player 1** picks a letter and reads it silently.
Player 1 thinks of a word starting with their letter and says the word aloud.

- 2 **Player 2** guesses the first letter of player 1's word, and find it in the bowl.

- 3 The two players compare their bricks to see if they are the same.

Facilitation tips

- Select letters which are easy to read by touch.
- Increase or decrease the number of letters.
- Ask the child to pick 2 letters and make words that include both of those letters.
