Odd or Even?
Upper Case Letters

A, B, C, D... Yes, you know your alphabet! But can you separate vowels and consonants? Of course you can!

The children read the letters and decide which tower the letter belongs to.

Goals

To classify letters by category: vowel or consonant.

The adult prepares

- 1 baseplate
- 6 vowel bricks and 6 consonant bricks in a bowl

The children play

- 1 Ask the student to pick a brick, read the letter and identify if it is a vowel or a consonant.
- 2 Tell them to build 2 towers: one made of consonants, the other of vowels.

Facilitation tips

- Choose different numbers of vowels and consonants.
- Use a timer.
- Make a 2-player challenge: collaborate with peers to build the tallest tower using all of the bricks / just consonants / just vowels.
