The Longest Word

Help! A letter has disappeared. Can you fix the word?

One letter is missing, now nobody knows what the word is! Find the letter and rebuild the word. You can even make your own words!

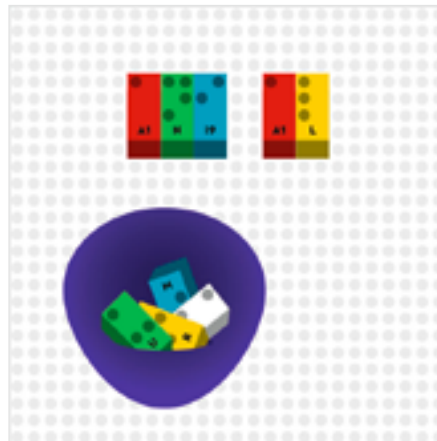

Goals

To write words.
To develop vocabulary.

The adult prepares

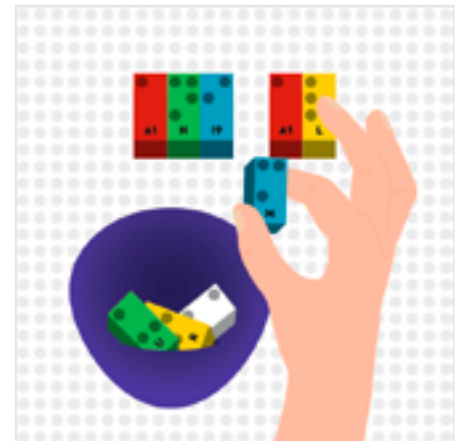

- 1 baseplate
- An alphabet baseplate
- 1 bowl

The children play

- 1 Ask **player 1** to think of a word, and write it on the baseplate.

Remove one letter and place it in the bowl with 3 other "intruder" letters.

- 2 Tell **player 2** to read the letters on the baseplate, decide which letter is missing and find it in the bowl.

Player 2 completes the word and reads it aloud. **Player 1** says yes or no.

Facilitation tips

- Change the number of bricks in the bowl.
- Change the number of letters removed.
- Ask: What was your strategy for the activity? Did you try all the letters or guessed the word?
